

**WHAT IS CLAIMED IS:**

1. A method for sharing contents on the Internet, comprising the steps of:

accessing a web server via a WebDVD player/recorder;

5 uploading contents to the web server, via the player/recorder, for sharing the contents with other users;

viewing contents uploaded to the web server via the player/recorder; and

selectively recording the uploaded contents via the player/recorder.

10 2. The method of claim 1, further comprising the steps of:

selectively editing the uploaded contents via a WebDVD player/recorder; and

submitting updated contents to the web server, via the player/recorder, for sharing with other users.

15 3. The method of claim 1, wherein the viewing step includes a step of viewing contents uploaded by multiple users.

4. The method of claim 1, wherein the uploaded contents conform to a WebDVD specification.

20 5. The method of claim 1, wherein the web server is accessed using a URL on the WebDVD disc.

6. The method of claim 1, wherein the web server is accessed using a URL input by a user.

7. The method of claim 1, further comprising:

before the uploading step, authoring the contents; and

after the authoring step, recording the contents in the player.

8. The method of claim 7, wherein the recording step records the  
5 contents in a recordable WebDVD disc.

9. The method of claim 7, wherein the recording step records the  
contents in a hard disk with a WebDVD logical format in the WebDVD  
player/recorder.

10. A method for sharing contents on the Internet, comprising the  
10 steps of:

authoring contents via a WebDVD player/recorder;

recording the contents via the player/recorder for sharing the  
contents; and

enabling other users to access the player/recorder to view and  
15 update the shared contents.

11. The method of claim 10, further comprising a step of selectively  
editing the contents via the player/recorder for sharing the edited contents  
with other users.

12. The method of claim 10, wherein the contents are authored to  
20 conform to a WebDVD specification.

13. The method of claim 10, wherein the contents are recorded in a  
recordable WebDVD disc.

14. The method of claim 10, wherein the contents are recorded in a hard disk with a WebDVD logical format in the player/recorder.

15. A method for sharing contents on the Internet, comprising the steps of:

5       authoring contents via a WebDVD player/recorder;

          recording the contents via the player/recorder; and

          uploading the contents to a web server, via the player/recorder, for sharing the contents with other users, the contents conforming to a WebDVD specification to the web server.

10       16. The method of claim 15, further comprising:

          viewing contents uploaded to the web server, via the player/recorder; and

          selectively recording the uploaded contents on a recordable disc via the player/recorder.

15       17. The method of claim 16, further comprising:

          selectively editing the uploaded contents via the player/recorder; and

          submitting updated contents to the web server, via the player/recorder, for sharing with other users.

20       18. The method of claim 17, wherein the viewing step includes a step of viewing contents uploaded by multiple users.

          19. The method of claim 15, wherein the contents are recorded in a recordable WebDVD disc.

20. The method of claim 15, wherein the contents are recorded in a hard disk with a WebDVD logical format in the WebDVD player/recorder.
